4 Supporting documentation

Enhancement Deliverable on X driver under X:/OPS/IFAP/enhancement
IFAP/SP tracking database

5 Validation of System

Enhancement is always done and test on the development , testing and staging environments, then migrate to the production server.

6 Problem Determination

Please refer to enhancement deliverable and the resolution information in the tracking database.

6.1. Step One -

The first step is to collect all the enhancement requirement, meet with client to go through all the requirements.

6.2. Step Two -

The second step is to prepare the deliverable, submit for client approval

6.3. Step Three -

The third step is to get the approval and begin the enhancement development

6.4. Step Four

The fourth step is to test the development result. Get the final approval from client customers and close the task.
